

U of M Health Taps ERISA Recovery for Complex Aged Claims Partnership

THE ERISA EFFECT

ERISA Recovery's efforts in our appeals process for the University of Miami are very complex due to the nature of the denials. Tasked with processing their intricate written-off cancer claims has strengthened our teams' abilities and rewarded our client with **recovered denials exceeding \$1.3 million in a short time frame with another \$4.7 million claims in process.**

Our program analytics continue to improve with each successful appeal as we tailor our process to each of our clients' unique needs. The University of Miami has provided ERISA with seamless accessibility and quality records. We are proud to be partnered with this leading healthcare provider.

"ERISA Recovery was able to provide a substantial lift on reimbursements we otherwise would not have collected on. The lift on our end was minimal and the benefit to cash was immediate."

University of Miami Health System

The University of Miami Health System (UHealth) delivers leading-edge patient care by the region's best doctors, powered by the groundbreaking research of the University of Miami Leonard M. Miller School of Medicine. As South Florida's only university-based medical system, UHealth is a vital component of the community that is leading the next generation of health care.

Patients from around the world turn to UHealth in their search for expert care from their top ranked physicians. UHealth is home to the #1 eye hospital in the United States, Bascom Palmer Eye Institute, the only NCI-designated cancer center in South Florida, Sylvester Comprehensive Cancer Center, a pioneering cardiac surgery program, and offers expertise in more than 100 medical specialties.
